

STORAGE

Before storing, don't forget to dry your tent completely as moisture can lead to mildew. Remove as much dirt and moisture from your tent as possible. Do not store your tent compressed or exposed to UV light for long periods.

TIPS

- ▶ Avoid pitching the tent in rough ground.
- ▶ Be careful when shovelling near the tent.
- ▶ Make sure the tent is clean and dry before packing.
- ▶ Store the tent unpacked to allow air circulation.
- ▶ Make periodic inspections for wear and tear.
